

TacticalWalls[®]

The QLS Holster Mount is a modular ModWall system designed for Safariland Quick Locking Systems for multiple positions and preferences.

- 1) Turn it 90 degrees and the holster can be mounted horizontally for your convenience
- 2) Flip it 180 degrees, the mount will keep your holster clipped in or attached unlocked
- 3) Pinch the holster locking tabs to release the holster from the mount for easy access.

Share your setup with us and the world!
